RE: RM OF WHITEHEAD – POTENTIAL EXPANSION TO WASTE DISPOSAL SITE/WASTE MANAGEMENT FACILITY

As promised, here is a Council update regarding the Waste Disposal Grounds:

- We are currently drafting a Request For Proposals (RFP) for a “Feasibility Study and Long Range Plan for a Waste Management Facility”, that will be sent to potential Consultants/Engineering Firms. (if anyone would like to see the RFP, we can send a copy when completed)
- The deadline for submitting proposals will be Friday, April 26th, 2019
- In talking to one of the engineering firms, the full study would likely take 2 to 3 months after award of the contract – meaning full details will not be available until June or July.
- In terms of the process for the Conditional Use to allow an enlargement of the present footprint, Council does have the option to deal with a resolution to approve or defeat the Conditional Use Order, with or without any conditions, at **anytime**.
- One condition council is considering – if they move forward with purchasing the property – is to plant 2 rows of trees around the perimeter (in addition to the fence that is mandatory per Provincial regulations).
- Please be aware that Council may choose to further discuss this topic at any of their future meetings, **including the next one on Monday, April 8th** – start time 8:30 a.m. (if you would like to know when the Waste Site is on the Agenda, please call the office and we will give you the most up to date information we have)
